The national currency equivalent may be retained unchanged if the conversion would result in a decrease in that equivalent value.

5. The amounts expressed in USD shall be reviewed by the Joint Committee at the request of Israel and a Member State of MERCOSUR. When carrying out this review, the Joint Committee shall consider the desirability of preserving the effects of the limits concerned in real terms. 4. If the customs authorities of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

5. The competent governmental authorities requesting the verification shall be informed of the results of this verification as soon as possible, but not later than 10 months from the date of the request. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in Israel or in a Member State of MERCOSUR and fulfill the other requirements of this Chapter.

6. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting competent governmental authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

(b) domestic industry means the producers as a whole of the like or directly competitive goods operating in the territory of a Party or Signatory Party or whose collective output of the like or directly competitive goods constitutes a major proportion of the total production of such goods;

(c) good originating in the territory of a Party means an “originating good”, as defined in Chapter IV (Rules of Origin);

(d) interested parties means:

(i) exporter or foreign producer or the importer of goods subject to investigation, or a trade or business association, a majority of the members of which are producers, exporters or importers of such goods;

(ii) the government of the exporting Party; and

(e) like good means a good which, although not alike in all respects, has like characteristics and like component materials which enable it to perform the same functions and to be commercially interchangeable with the good to which it is compared;

(f) serious injury means the significant overall impairment in the position of a domestic industry;

(g) threat of serious injury means “serious injury” that is clearly imminent, based on facts and not merely on allegation, conjecture or remote possibility.

2. Subject to Article 2 of this Chapter, if a good originating in the territory of a Party, as a result of the reduction or elimination of a customs duty provided for in this Agreement, is being imported into the territory of the other Party (hereinafter-preferential imports) in such increased quantities, in absolute and relative terms, and under such conditions that the imports of the good from that Party alone constitute a substantial cause of serious injury or threat of serious injury to a domestic industry, the Party or Signatory Party into whose territory the goods is being imported may, to the minimum extent necessary to remedy the injury:

(a) suspend the further reduction of any rate of a customs duty provided for under this Agreement on the goods; or

(b) increase the rate of a customs duty on the goods to a level not exceeding the base rate of customs duty, as referred to in Chapter III (Trade in Goods).

3. The Party or Signatory Party that applies a preferential safeguard measure may establish an import quota for the product concerned under the agreed preference established in this Agreement. The import quota shall not be less than the average imports of the product concerned in the thirty-six (36) months previous to the period used for determining the existence of serious injury.

The period used for determining the existence of serious injury shall not be more than thirty-six (36) months.

In case a quota is not established, the bilateral safeguard measure shall consist only of a reduction of the preference which shall not be greater than 50% of the tariff preference established in this Agreement.

4. Bilateral Safeguard measures may not be applied in the first year after the tariff preferences negotiated under Chapter III (Trade in Goods) of the Agreement come into force.

Bilateral safeguard measures may not be applied after five years from the date of the finalization of the tariff elimination or reduction program applicable to the goods unless otherwise agreed by the Parties. After this period, the Joint Committee shall evaluate whether or not to continue the bilateral safeguard measures mechanism included in this Chapter.

5. In the investigation to determine whether preferential imports have caused or are threatening to cause serious injury, the competent investigating authority shall evaluate all relevant factors of an objective and quantifiable nature having a bearing on the situation of the domestic industry concerned, particularly the following:

(a) the amount and rate of the increase in preferential imports of the goods concerned in absolute and relative terms;

(b) the share of the domestic market taken by increased preferential imports;

(c) the price of the preferential imports;

(d) the consequent impact on the domestic industry of the like or directly competitive goods, based on factors, including: production, productivity, capacity utilization, profits and losses, and employment;

(e) other factors other than the preferential imports, which may be causing injury or threat of injury to the domestic industry.

6. When factors other than increased preferential imports are causing injury to the domestic industry at the same time, such injury caused by those other factors shall not be attributed to the increased preferential imports.

7. MERCOSUR may adopt bilateral safeguard measures:

(a) as a sole entity, as far as all requirements to determine the existence of serious injury or threat thereof is being caused by the imports of goods as a result of the reduction or elimination of a customs duty provided for in this Agreement, have been fulfilled on the basis of conditions applied to MERCOSUR as a whole; or

(b) on behalf of one of its Member States, in which case the requirements for the determination of the existence of serious injury or threat thereof, being caused by the imports as a result of the reduction or elimination of a customs duty provided for in this Agreement, shall be based on the conditions prevailing in the affected Member State of the customs union and the measure shall be limited to that Member State.

8. Israel may apply bilateral safeguard measures to the imports from MERCOSUR or MERCOSUR Member States where such serious injury or threat thereof is being caused by the imports of a good as a result of the reduction or elimination of a customs duty provided for in this Agreement.

9. In critical circumstances where delay may cause damage which would be difficult to repair, a Party or Signatory Party, after due notification, may take a provisional safeguard measure pursuant to a preliminary determination that there is clear evidence that increased

preferential imports have caused or are threatening to cause serious injury. The duration of the provisional measure shall not exceed two hundred (200) days, during which period the requirements of this Chapter shall be met. If the final determination concludes that there was no serious injury or threat thereof to domestic industry caused by preferential imports the increased tariff or provisional guarantee, if collected or imposed under provisional measures, shall be promptly refunded according to the domestic regulation of the relevant Signatory Party.

10. The competent investigating authority may initiate a bilateral safeguard measure investigation at the request of the domestic industry in the importing Party or Signatory Party of the like or directly competitive goods in accordance with its internal legislation.

11. The purpose of investigation shall be:

- (a) to assess the quantities and conditions under which the goods under investigation are being imported;
- (b) to determine the existence of serious injury or threat of serious injury to the domestic industry in accordance with the provisions this Chapter; and
- (c) to determine the causal link between the increased preferential imports of the goods concerned and the serious injury or threat thereof to the domestic industry, in accordance with the provisions of this Chapter.

12. The following conditions and limitations shall apply to a proceeding that may result in bilateral safeguard measures under paragraph 2:

- (a) each Party or Signatory Party shall establish or maintain transparent, effective and equitable procedures for the impartial and reasonable application of bilateral safeguard measures;

 - iv) the deadline for the submission of information, statements and other documents;
 - v) the address where request or other documents related to the investigation can be examined;
 - vi) the name, address and telephone number of the competent investigating authority which can provide further information; and

- (c) the Party or Signatory Party applying provisional or final bilateral safeguard measures shall without delay, deliver to the other Party written notice thereof including the following:
- i) the complete description of the goods subject to the bilateral safeguard measure, which is sufficient for customs purposes, and its tariff classification under the Harmonised System;
 - ii) information and evidence leading to the decision, such as: the increasing or increased preferential imports, the situation of the domestic industry, the fact that

the increase in imports is causing or threatening to cause serious injury to the domestic industry; in the case of provisional measures, the existence of critical circumstances as specified in paragraph 9 above;

iii) other reasoned findings and conclusions on all relevant issues of fact and law;

iv) description of the measure to be adopted;

v) the date of entry into force of the measure and its duration.

(d) consultations, with a view to finding an appropriate and mutually acceptable solution, shall take place in the Joint Committee if any Party or Signatory Party so requests within 10 days from receipt of a notification as specified in paragraph (c). In case of the absence of a decision or if no satisfactory solution is reached within 30 days of the notification being made the Party or Signatory Party may apply the measures.

(e) any bilateral safeguard measure shall be taken no later than one (1) year after the date of initiation of the investigation; no bilateral safeguard measure shall be applied in case this time frame is not observed by the competent authorities;

- (k) the bilateral safeguard measures taken shall be subject to periodic consultations within the Joint Committee with a view to their relaxation or abolition when conditions no longer justify their maintenance.

13. A bilateral safeguard measure does not include any safeguard measure pursuant to a proceeding instituted prior to the entry into force of this Agreement.

Article 2 - Global Emergency Measures

1. Each Signatory Party retains its rights and obligations under Article XIX of GATT 1994, the WTO Agreement on Safeguards or any other safeguard agreements pursuant thereto except those regarding exclusion from a measure to the extent that such right or obligation is inconsistent with this Article. Any Party or Signatory Party taking an emergency measure under Article XIX, the WTO Agreement on Safeguards or any such agreement shall exclude imports of goods from the other Party or Signatory Party from the measure unless:

- (a) the specific product is not covered by this Agreement; or
- (b) imports from the other Signatory Party account for a substantial share of total imports and contribute importantly to the serious injury or threat thereof caused by total imports.

“Contribute importantly”- means an important cause, but not necessarily the most important cause.

2. In determining whether:

- (a) imports from the other Signatory Party account for a substantial share of total imports, those imports normally shall not be considered to account for a substantial share of total imports if that Signatory Party is not among the top five suppliers and does not supply at least 15 percent of the good subject to the proceeding, measured in terms of import share during the most recent representative period, that shall normally be three-years. During the first three years after the entry into force of this Agreement, the import share may be calculated for a period shorter than three years to the extent not to include the years before the date of entry into force of this Agreement; and
- (b) imports from the other Signatory Party contribute importantly to the serious injury or threat thereof, the competent investigating authority shall consider such factors as the change in the import share of the other Signatory Party and the level and change in the level of imports of the other Signatory Party. In this regard, imports from the other Signatory Party normally shall not be deemed to contribute importantly to serious injury or threat thereof, if the growth rate of imports from that Signatory Party during the period in which the injurious increase in imports occurred is appreciably lower than the growth rate of total imports from all sources over the same period.

3. The following conditions and limitations shall apply to a proceeding that may result in emergency measures under paragraph 1 or 4:

- (a) the Party or Signatory Party initiating such a proceeding shall, without delay, deliver to the other Party written notice thereof;
- (b) where, as a result of a measure, the rate of a customs duty is increased, the margin of preference shall be maintained;

(c) upon the termination of the measure, the rate of a customs duty or quota shall be the rate which would have been in effect but for the measure.

(d) the imports from the Signatory Party that have been excluded from the applied safeguard measure, shall not be included in the calculation of the serious injury caused to the domestic industry of the Party or Signatory Party who applied such measure.

4. A Party or Signatory Party taking such measures, from which a good from the other Signatory Party is initially excluded pursuant to paragraph 1, shall have the right subsequently to include that good from the other Signatory Party in the measure in the event that the competent investigating authority determines that an increase in imports of such good from the other Signatory Party is contributing importantly to the serious injury or threat thereof and thereby undermines the effectiveness of the measure.

5. A global emergency measure does not include any emergency measure pursuant to a proceeding instituted prior to the entry into force of this Agreement.

In cases which could involve narcotic drugs and psychotropic substances or which could cause substantial damage to the economy, public health, security or any other vital interest of the requesting Signatory Party, such information shall be supplied, whenever possible, without being requested.

Article 4 - Professional and Technical Cooperation and Assistance

 5. Assistance shall be carried out by direct communication between the respective Customs Authorities.

Article 6 -Execution of Requests

1. The requested Customs Authority shall take all reasonable measures to execute a request within a reasonable amount of time and, if necessary, shall initiate any official measure necessary for the carrying out thereof
2. If the requested Customs Authority does not have the information requested, it shall take any necessary measures to obtain such information. If necessary, the requested Customs Authority may be assisted by another competent authority of the requested Signatory Party in providing the assistance. However, answers to requests shall be conveyed solely by the requested Customs Authority.
3. In cases where the requested Customs Authority is not the competent authority to comply with a request, it shall either promptly transmit the request to the competent authority, which shall act upon the request according to its powers under the domestic law of the requested Signatory Party, or advise the requesting Customs Authority of the appropriate procedure to be followed regarding such a request.

4. All Subject to the domestic law of the requested Signatory Party, the Customs Authority of a Signatory Party shall, upon the request of the Customs Authority of another Signatory Party, conduct any necessary investigation, including the questioning of experts and witnesses or persons suspected of having committed an offense, and undertake verifications, inspections and fact-finding inquiries in connection with the matters referred to in this Annex. The results of such investigations, verifications, inspections and fact-finding inquiries shall be communicated as soon as possible to the requesting Customs Authority.
5. a) Upon request, and under any terms and conditions it may set, the requested Customs Authority may allow officials of the requesting Customs Authority to be present in the territory of the requested Signatory Party, when its officials are investigating offenses which are of concern to the latter, including allowing their presence at investigations

b) The presence of officials of the requesting Customs Authority in the territory of the requested Signatory Party shall be solely in an advisory capacity. Nothing in sub-paragraph a), above shall be construed to allow them to exercise any legal or investigative power granted to customs officials of the requested Customs Authority under the domestic law of the requested Signatory Party.
6. When officials of the requesting Customs Authority are present in the territory of the requested Signatory Party pursuant to this Annex, they may not carry weapons and must be able, at all times, to furnish proof of their identity and shall be responsible for any offenses they might commit.
7. Officials of the requesting Customs Authority, authorized to investigate offenses against customs laws, may ask that officials of the requested Customs Authority examine any relevant information, including books, registers and other documents or data-media, and supply copies thereof or provide any other information relating to the offense.
8. The requesting Customs Authority shall, if it so requests, be advised of the time and place of the action to be taken in response to a request so that such action may be coordinated

Article 7 - Files, Documents and Witnesses

2. Upon specific written request, copies of information and other materials provided pursuant to this Annex shall be appropriately authenticated. Originals of such information and other materials shall only be requested in cases wherein copies would be insufficient.
3. The provision of the originals of information and other materials pursuant to this Annex shall not affect the rights of the requested Customs Authority nor of third parties thereto. Such originals shall be returned as soon as possible. Upon request, originals necessary for adjudicative or similar purposes shall be returned without delay.
4. The requested Customs Authority shall supply, together with the information provided, all necessary instructions for its interpretation or utilization.
5. Upon request of the Customs Authority of one Signatory Party, the Customs Authority of another Signatory Party shall authorize its officials, if such officials so consent, to appear as witnesses in judicial or administrative proceedings in the territory of the requesting Signatory Party, and to produce such files, documents, or other materials, or authenticated copies thereof, as may be considered essential for the proceedings.
Such a request shall include the date and type of the proceeding, the names of the parties involved, and the capacity in which the official is to appear.

Article 8 - Service of Documents

Upon request, the requested Customs Authority shall notify a person, residing or established in the territory of the requested Signatory Party, in accordance with its domestic law and administrative provisions, of any formal decision falling within the scope of this Annex concerning that person, taken by the requesting Customs Authority.

Article 9 - Controlled Delivery

1. The Customs Authorities shall take the necessary measures, within their capacity and in accordance with the domestic law of the relevant Signatory Parties, including, whenever necessary, the approval of and coordination with the relevant competent authorities, to allow for the appropriate use of controlled delivery at the international level for the purpose of identifying persons involved in the illicit trafficking in narcotic drugs and psychotropic substances or in other goods, as the case may be, and taking legal action against them.
2. Decisions to use controlled delivery shall be made on a case-by-case basis and, where necessary, in accordance with any arrangements or agreements which may have been reached concerning a particular case. The Customs Authorities may, if necessary, and provided it is in conformity with the domestic law of the relevant Signatory Parties, take into account financial arrangements and understandings reached.
3. Illicit consignments whose controlled delivery is agreed to may, by mutual consent of the competent authorities, be intercepted and allowed to continue with the narcotic drugs and psychotropic substances, or other goods, as the case may be, intact or removed or replaced in whole or in part.

Article 10 - Exemptions from Assistance

1. In cases where the requested Signatory Party is of the opinion that the provision of assistance under this Annex would infringe upon its sovereignty, security, public policy, or any other substantive national interest, or involve the violation of a commercial, industrial, or professional secret, assistance may be refused or compliance may be conditioned upon the satisfaction of certain conditions or requirements.
2. In the event that a request is refused or cannot be complied with in full or in part, the requesting Customs Authority shall be promptly notified of the fact and informed of the reasons thereof.

3. If the requesting Customs Authority requests assistance which it, itself, would not be able to provide, it shall draw attention to that fact in the request. Compliance with such a request shall then be within the discretion of the requested Customs Authority.

4. Assistance may be postponed by the requested Customs Authority on the ground that it will interfere with an ongoing investigation, prosecution or proceeding. In such a case, the requested Customs Authority shall consult with requesting Customs Authority to determine if assistance can be given subject to such terms or conditions as the requested Customs Authority may require.

Article 11 - Confidentiality

1. Information and other communications received pursuant to this Annex may be used only for the purposes specified therein, except if the requested Customs Authority has given its written consent for such use.

2. Any information or other communications received by the Customs Authority of a Signatory Party, pursuant to this Annex, shall be treated as confidential and shall not be communicated to any person or entity outside the requesting Customs Authority that received them, except as provided for in this Annex.

3. Information and other communications received pursuant to this Annex may be used in investigations and in judicial and administrative proceedings.

4. The provisions of Paragraph 2 shall not apply to cases concerning offenses relating to narcotic drugs and psychotropic substances. Such information may be communicated to other authorities in the requesting Signatory Party directly involved in combating illicit drug traffic. In addition, information on offenses relating to the public health, public security or environmental protection of the Signatory Party whose Customs Authority received the information may be conveyed to the competent governmental authorities which deal with such matters.

Such information shall be treated as confidential and shall enjoy any and all protection afforded to similar information under the laws of confidentiality and secrecy as provided for in the domestic law of the Signatory Party whose Customs Authority received them.

5. The requesting Customs Authority shall not use evidence or information obtained under this Annex for purposes other than those stated in the request without the prior written consent of the requested Customs Authority.

Article 12 - Costs

1. The Customs Authorities of the Signatory Parties shall normally waive all claims for the reimbursement of costs incurred in the execution of this Annex, with the exception of expenses for witnesses, fees of experts and the cost of interpreters other than government employees.

2. If expenses of a substantial and extraordinary nature are, or will, be required to execute a request, the Customs Authorities of the Signatory Parties shall consult to determine the terms and conditions under which the request will be carried out, as well as the manner in which the costs shall be borne.

Article 13 - Implementation

1. The Customs Authorities shall be responsible for the implementation of this Annex. They shall, inter alia;

(a) communicate directly for the purpose of dealing with matters arising out of this Annex;

(b) after consultation, if necessary, issue any administrative directives or agreed upon procedures for the implementation of this Annex;

- (c) endeavor by mutual accord to resolve any problems or doubts arising from the application of this Annex or any other customs matter which may arise between them;
- (d) agree to meet, if one of them so requests, in order to discuss the application of this Annex or to discuss any other customs matters arising out of the relationship between them; and
- (e) arrange for their investigation departments to be in direct contact with one another.

2. This Annex shall not prejudice the application of any bilateral Agreements on mutual assistance in customs matters concluded or that may be concluded between the State of Israel and a Member State of MERCOSUR; nor shall it prejudice the granting of assistance under any other international agreements concerning assistance in customs matters to which both sides are parties.

ANNEX II
